Ji's software is easy to use. But it is Ji's training and support which makes it easy to embed in your school or home

Ji Tap Pro

Ji Tap will always be free, and is a great way to start delivering interactive Jewish Studies and Ivrit. Most schools, supplementary schools and synagogues want more though. So we developed Ji Tap Pro to provide a richer experience, save teachers' time, and work with classes or groups of students.

Tracking & reporting

Track what each student did. Which activities did they start? How far did they progress? Have they done their homework? What did they score?

Private storage

Create lessons and games specifically for your students or school, without making them publicly available on the Ji Tap portal.

Classes & groups

Create groups of students as classes or learning groups, assign activities to them and track their progress.

$120 per school per year

This annual flat fee includes full access to:

• Ji Tap games, activities and stickers
• Student activity tracking and reporting
• Private storage
• Classes and learning groups

Set-up, staff training and on-site support can be bought separately.

Supplementary schools and synagogues can also buy an annual Ji Tap Pro subscription for $120.
