

How to make Jigzi into an app (chrome)

Creating an app shortcut on desktop

1. Open Jigzi in your Chrome browser. To the right of the URL field there is a **Download** button. Click it, and you will have an app, with a shortcut on your desktop.

2. When opening from the Jigzi icon, Jigzi will open up without any of the browser tabs along the top:

Creating an app shortcut on iPad and iPhone

1. Open Jigzi in the browser and click the **Share** button.

2. The Share dialog opens up:

3. Tap **Add to Home Screen**, and you will have a shortcut to Jigzi!

4. Tapping the Jigzi shortcut will open up the app full-screen, with no tabs along the top of the screen, with minimal distractions for the students
